LATEST ANNOUNCEMENTS

Celebrating 100!
Posted on 14 Dec 2016, 5:15 PM

I am thrilled to announce a new milestone today, December 15th. With Ravi Kumar joining the South Asia region as the Manager - Finance, Accounts & Administration, we have hit 100 current staff for the first time ever. I have double the excitement as I know that Ravi will be a great addition to our local work in India and the global staff of Smile Train and because of this wonderful milestone we have reached. I look back at how far we have come since I started and how strategically we have grown globally under Susie's leadership and direction and I am filled with such joy to be working alongside 99 of the best people in the world. Thank you for all you do every day.

Best,
Justin

Task Central Repository

Having a central location to collect, store, and report KPI data makes it much easier to manage metrics that are unified around a strategy map. Summarizing and focusing the detailed data that you deal with every day into something that's coherent for management helps to help ensure synergy and attainment of corporate goals.

The screenshot displays the eOffice interface for a 'Dự án Tasken eOffice' project. It features a table of tasks and a Gantt chart for the month of December 2018. The table lists tasks such as 'Nghiên cứu xử lý scroll màn hình' with start and end dates, assigned to 'Hoang Minh Thien', and progress percentages. The Gantt chart visualizes the task timelines. A 'Bug Tracking' sidebar is also visible, showing details for a specific task.

Elimination of Departmental Barriers

Regardless of the specific performance criteria that is central to your immediate or long-term business goal, each key performance indicator should be structured so it connects to the duties of everyone at the company and, as such, eliminates departmental barriers.

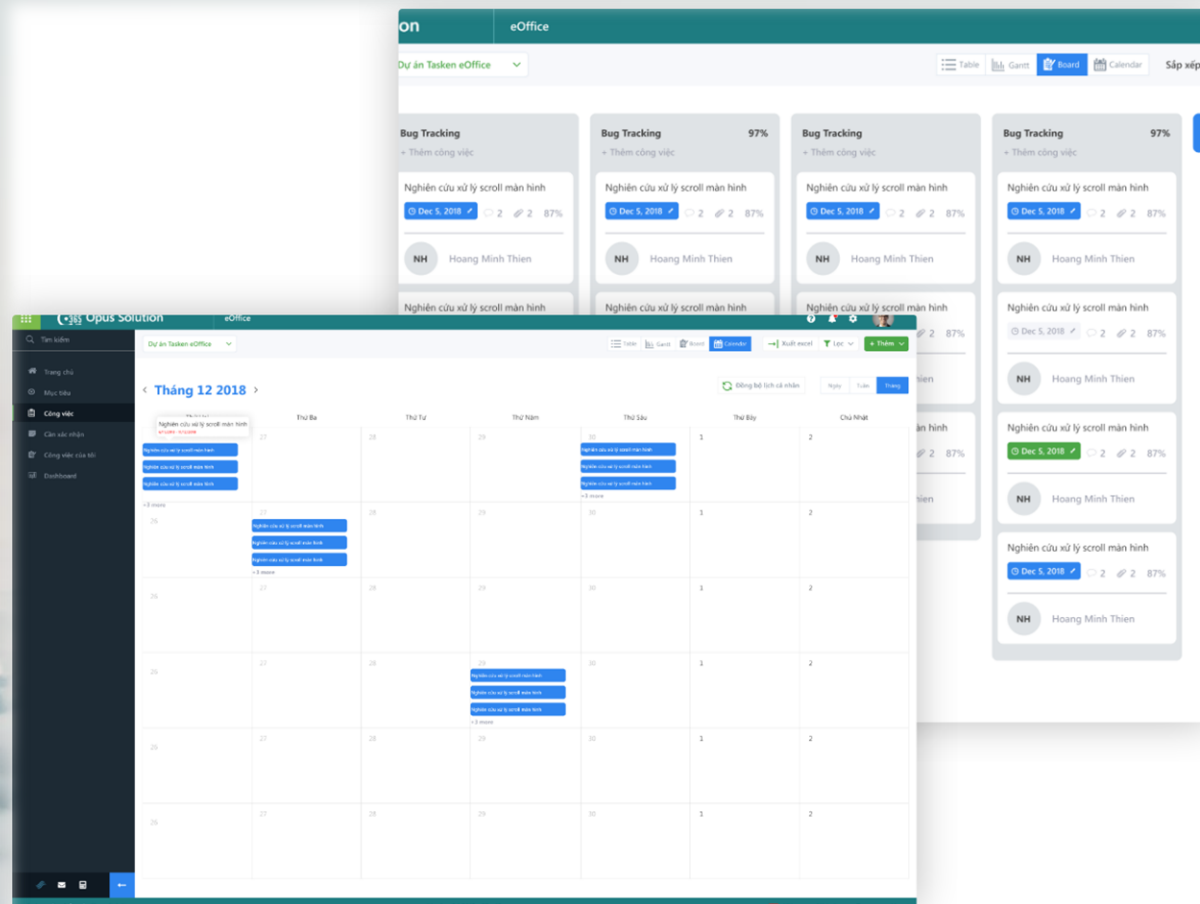

The screenshot displays the Tasken eOffice interface. At the top, there's a 'Công việc' (Task) section with a dropdown menu set to 'Dự án Tasken eOffice'. Below this, a 'Chi tiết công việc' (Task Details) panel shows information for a task titled 'KPI, Quản lý mục tiêu, giao việc'. The task description includes 'Thiết kế màn hình xem công việc' and 'Xem màn hình công việc có 2 nút'. To the right, a 'Nhân sự thực hiện mục tiêu' (Personnel achieving goals) pie chart shows the distribution of tasks among team members: Hoàng Minh Thiên (black), Hoàng Minh Thiện (red), and Hoàng Minh Thiện (blue).

The main part of the dashboard is a table titled 'Công việc thực hiện mục tiêu' (Tasks achieving goals). The table has columns for 'Task', 'Department', 'Factor', 'Status', 'Deadline', and 'Assigned'. The tasks listed include 'Budget Plan - Quản lý ngân sách phòng ban và thu chi', 'Bug Tracking', 'KPI - Tenant Admin của công ty khác có quyền như Tenant Admin của công ty này', 'Chức năng quản trị Information Architecture', and 'Đối với trường hợp vượt quá giới hạn attach file size thì hiện thông báo lỗi'. Each row shows the task's progress percentage and deadline.

Closed-Loop Process

Effective score carding and exception management are powerful catalysts for making the need for change visible and the opportunity for improvement clear, helping to close the loop in the performance management cycle and to replace the “blame culture” that often sprouts when areas of low performance are revealed.

Performance Measurement

Within the dashboard, KPIs are presented in a manner that gives executives enhanced analytical insights, showing not only the current levels of performance against each KPI, but providing the capabilities to create “what-if” scenarios and exception reports which are immensely helpful in giving vital information to executives to initiate necessary corrective (or proactive) actions.
